

REMARKS

This is a full and timely response to the outstanding Request for Information mailed May 4, 2006, which required Applicant to provide a clear copy of the page consisting of a hand written description beginning with the title "Step 1". In response to this Request, Applicant has include the attached copy, designated Exhibit 2, which Applicant believes to be the best copy available for submission.

CONCLUSION

In light of the foregoing information, Applicant respectfully requests favorable consideration and allowance of the present application and all pending claims. If, in the opinion of the Examiner, a telephonic conference would expedite the examination of this matter, the Examiner is invited to call the undersigned attorney at (770) 933-9500.

Respectfully submitted,

David Rodack, Reg. No. 47,034

Write in dark ink on front side only please?

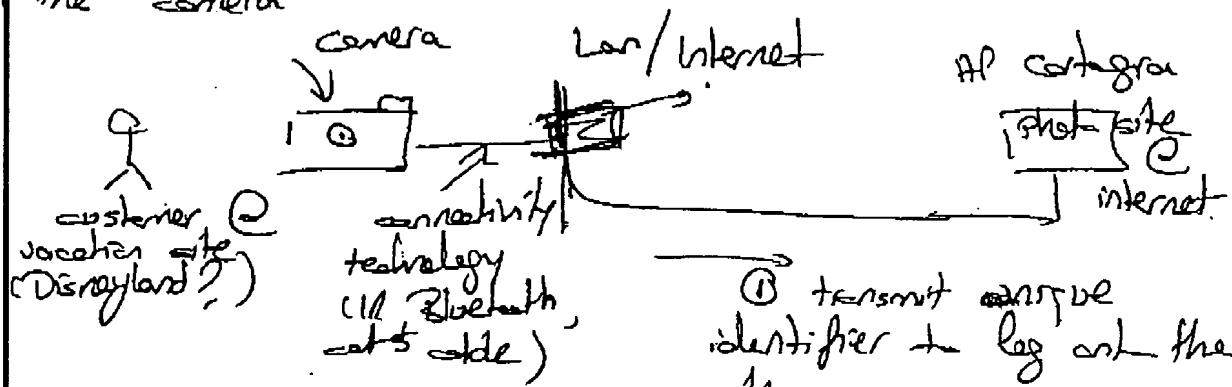

EXHIBIT 2
PAGE 1 OF 1

STEP 1

→ buy the camera from the store & establish an account on the digital photo site. This could be extension of cartogra web site from HP. Site would provide storage, sharing & print ordering functionality. The account creation mechanism similar to cell phone activation. The camera serial #, account name on the site camera name etc could be used as the unique identifier of the account. SUV would be used to ~~take~~ the account on the site & link the camera to the site when connected to internet.

STEP 2

→ using embedded web server functionality or Bluetooth like technologies the user can control the storage & print ordering type functionality. This would be done thru simple controls on the camera.

① transmit unique identifier to log on the site

② issue simple commands
→ download images to the site
→ order prints for all or just the marked ones

③ site updates account info & processes request
